MEDIA CHINESE INTERNATIONAL LIMITED
(Incorporated in Bermuda with limited liability) (Malaysia Company No. 200702000044)
Financial report for the fourth quarter ended 31 March 2020

A. NOTES TO THE FINANCIAL INFORMATION

A1. Basis of preparation

This condensed consolidated financial information of the Company and its subsidiaries (collectively the “Group”) for the quarter and year ended 31 March 2020 (“this financial information”) has been prepared in accordance with the International Accounting Standard (“IAS”) 34 “Interim Financial Reporting” issued by the International Accounting Standards Board, Rule 13.09(2)(a) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“HK Listing Rules”) and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Listing Requirements”).

This financial information should be read in conjunction with the annual financial statements for the year ended 31 March 2019 which were prepared in accordance with International Financial Reporting Standards (“IFRSs”).

This financial information has not been audited.

A2. Accounting policies

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of new and amended standards as set out below.

(i) New and amended standards and interpretations adopted by the Group

The Group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 April 2019:

- Amendments to IAS 19, “Plan amendment, curtailment or settlement”
- Amendments to IAS 28, “Long-term interests in associates and joint ventures”
- Amendments to IFRS 9, “Prepayment features with negative compensation”
- New standard IFRS 16, “Leases”
- Interpretations IFRIC 23, “Uncertainty over income tax treatments”
- Annual improvement, “Annual improvements to IFRSs 2015–2017 cycle”

The Group changed its accounting policies as a result of adopting IFRS 16 “Leases”. The Group elected to adopt the simplified transition approach and has not restated comparatives for the 2019 reporting period. This is disclosed in Note A3. Other amendments and interpretations listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(ii) New standards and interpretations not yet adopted

Certain new accounting standards and interpretations have been published that are not mandatory for 31 March 2020 reporting periods and have not been early adopted by the Group.

		Effective for annual periods beginning on or after
Amendments to IAS 1	Classification of liabilities as current or non-current	1 January 2022
Amendments to IAS 1 and IAS 8	Definition of material	1 January 2020
Amendments to IFRS 3	Definition of a business	1 January 2020
Amendments to IAS 39, IFRS 7 and IFRS 9	Interest rate benchmark reform	1 January 2020
Amendments to IFRS 10 and IAS 28	Sale or contribution of assets between an investor and its associate or joint venture	Effective Date to be determined
Conceptual framework for financial reporting 2018	Revised conceptual framework for financial reporting	1 January 2020
IFRS 17	Insurance contracts	1 January 2023

A. NOTES TO THE FINANCIAL INFORMATION (Continued)

A2. Accounting policies (Continued)

(ii) New standards and interpretations not yet adopted (Continued)

None of these new standards and interpretations are expected to have a material impact on the Group's consolidated financial statements.

A3. Impact on the financial statements from the adoption of IFRS 16

This note explains the impact of the adoption of IFRS 16 "Leases" on the Group's consolidated financial statements.

As indicated in Note A2 above, the Group has adopted IFRS 16 retrospectively from 1 April 2019, but has not restated prior period comparatives, as permitted under the specific transitional provisions in the standard. The reclassifications and the adjustments arising from the new leasing rules are therefore recognised in the opening balances of the Group's consolidated statement of financial position as at 1 April 2019.

On adoption of IFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as "operating leases" under the principles of IAS 17 "Leases". These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 April 2019, except for short-term leases and leases for which the underlying asset is of low value, to which the respective lease payments associated with those leases are recognised as an expense on a straight-line basis over the lease term. The weighted average lessee's incremental borrowing rate applied to the lease liabilities on 1 April 2019 was 3.0%.

For leases previously classified as finance leases the entity recognised the carrying amount of the lease asset immediately before transition as the carrying amount of the right-of-use asset at the date of initial application. The right-of-use assets recognised on 1 April 2019 include balances of US\$1,514,000, US\$7,840,000 and US\$9,504,000 of long-term leasehold land outside Hong Kong, medium-term leasehold land in Hong Kong and medium-term leasehold land outside Hong Kong respectively.

(i) Measurement of lease liabilities

The Group had outstanding lease commitments of US\$2,369,000 as at 31 March 2019.

	US\$'000
Discounted using the lessee's incremental borrowing rate at the date of initial application	2,260

A. NOTES TO THE FINANCIAL INFORMATION (Continued)

A3. Impact on the financial statements from the adoption of IFRS 16 (Continued)

(ii) Measurement of right-of-use assets

The associated right-of-use assets were measured at the amount equal to the lease liabilities, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the consolidated statement of financial position as at 31 March 2019.

(iii) Adjustments recognised in the consolidated statement of financial position as at 1 April 2019

The change in accounting policy affected the following items in the Group's consolidated statement of financial position as at 1 April 2019:

- Property, plant and equipment – increased by US\$1,309,000
- Prepayments – decreased by US\$2,000
- Lease liabilities – increased by US\$1,307,000

There was no impact to the Group's retained earnings as at 1 April 2019.

(iv) Practical expedients applied

In applying IFRS 16 for the first time, the Group has used the following practical expedients permitted by the standard:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics;
- relying on previous assessments on whether leases are onerous as an alternative to performing an impairment review – there were no onerous contracts as at 1 April 2019;
- the accounting for operating leases with a remaining lease term of less than 12 months as at 1 April 2019 as short-term leases;
- the exclusion of initial direct costs for the measurement of the right-of-use asset at the date of initial application; and
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

The Group has also elected not to reassess whether a contract is, or contains a lease at the date of initial application. Instead, for contracts entered into before the transition date, the Group relied on its assessment made applying IAS 17 "Leases" and IFRIC 4 "Determining whether an Arrangement Contains a Lease".

A. NOTES TO THE FINANCIAL INFORMATION (Continued)

A4. Functional currency and translation to presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates, i.e. the functional currency. The functional currency of the Company is Malaysian Ringgit ("RM"). However, each entity within the Group can present its financial statements in any currency, which can be the same or different from the entity's functional currency. As the Group operates internationally, management considers that it is more appropriate to use United States Dollar ("US\$"), a globally recognised currency, as the presentation currency for the Group's consolidated financial statements. For the entity whose functional currency is not US\$, its results and financial position have been translated into US\$.

The assets and liabilities of each entity within the Group are mostly denominated in its own functional currency and do not have material impact on the consolidated statement of profit or loss for the year.

During the year ended 31 March 2020, the Group is particularly exposed to movements in the US\$ to RM exchange rate as a major part of the Group's operations is located in Malaysia.

A5. Auditor's report on preceding annual financial statements

The auditor's report of the Group's annual financial statements for the year ended 31 March 2019 was not subject to any qualification.

A6. Seasonal or cyclical factors

The business operations of the Group may be affected by major festive seasons or major events that may increase or decrease the advertising revenue and the travel business revenue.

A7. Unusual items

There were no unusual items affecting the Group's assets, liabilities, equity, net income or cash flows during the quarter under review.

A8. Changes in estimates

There were no material changes in estimates of amounts reported in prior financial years that have a material effect on the results of the quarter under review.

A9. Changes in debt and equity securities

There were no issuance, cancellation, repurchase, resale and repayment of debt and equity securities during the quarter under review.

A10. Dividends paid

The second interim dividend of US0.10 cents per ordinary share, totaling US\$1,687,000, in respect of the year ended 31 March 2019 was paid on 12 July 2019.

The first interim dividend of US0.16 cents per ordinary share, totaling US\$2,700,000, in respect of the year ended 31 March 2020 was paid on 30 December 2019.

A. NOTES TO THE FINANCIAL INFORMATION (Continued)

A11. Turnover and segment information

The Group Executive Committee is the Group's chief operating decision-maker. Management has determined the operating segments based on the reports that are reviewed and used by the Group Executive Committee for strategic decision-making.

The Group is organised operationally on a worldwide basis in four major operating segments:

Publishing and printing: Malaysia and other Southeast Asian countries
 Publishing and printing: Hong Kong and Taiwan
 Publishing and printing: North America
 Travel and travel related services

Publishing and printing segments are engaged in the publication, printing and distribution of newspapers, magazines, books and digital contents primarily in the Chinese language. The segments derive revenue mainly from the provision of advertising services and sales of newspapers and magazines. Travel and travel related services segment derives revenue from the sales of travel packages and provision of tour services.

The Group Executive Committee assesses the performance of the operating segments based on a measure of segment profit before income tax as presented in the internal financial report. Other information provided is measured in a manner consistent with that in the internal financial report.

The Group's turnover and results for the quarter ended 31 March 2020, analysed by operating segment, are as follows:

B1. Analysis of performance

	(Unaudited)			Year ended		
	Three months ended			31 March		
	2020	2019	% Change	2020	2019	% Change
	US\$'000	US\$'000		US\$'000	US\$'000	
Turnover	38,457	54,292	-29.2%	239,217	285,560	-16.2%
(Loss)/profit before income tax	(1,537)	(18,777)	91.8%	9,283	(6,537)	242.0%
EBITDA	351	(13,581)	102.6%	16,586	4,595	261.0%

The Group's turnover for the quarter under review fell by 29.2% to US\$38,457,000 from US\$54,292,000 in the previous corresponding quarter. The Group's performance during the current quarter was adversely affected by the COVID-19 outbreak, with its publishing and printing segment and the travel segment reporting sharp declines in turnover of 25.9% and 46.0% respectively when compared to the same quarter last year.

As a result of the abrupt downturn in business triggered by the pandemic, the Group reported a loss before income tax of US\$1,537,000 for the quarter ended 31 March 2020, compared to a loss before income tax of US\$18,777,000 in the prior year quarter. Last year's loss was mainly caused by the provisions for impairment of goodwill and certain plant and machinery totaling US\$17,977,000. Excluding the impairment provisions, current quarter's loss was higher mainly due to the sharp decline in revenue since the COVID-19 outbreak.

The Group's EBITDA for the quarter under review was US\$351,000, compared to an EBITDA loss of US\$13,581,000 a year earlier.

During the current quarter, both the Malaysian Ringgit ("RM") and the Canadian dollar ("C\$") weakened against the US Dollar, resulted in negative currency impact of approximately US\$418,000 on the Group's turnover and positive currency impact of approximately US\$17,000 on the Group's loss before income tax.

Publishing and Printing

For the quarter under review, the publishing and printing segment reported a turnover of US\$33,765,000, reflecting a decline of 25.9% when compared to the US\$45,597,000 recorded in the same quarter previous year.

Turnover of the Group's Malaysia and other Southeast Asia segment fell 22.9% year-on-year to US\$23,521,000 from US\$30,508,000. Despite the revenue decline, the segment reported a profit before income tax of US\$2,783,000 for the current quarter, as against a loss before income tax of US\$16,254,000 in the year-ago quarter. Excluding the above-mentioned impairment provisions of US\$17,977,000, the current quarter's profit before income tax would have been 61.5% higher than last year's. This was mainly attributed to the substantial cost savings which more than offset the impact of lower revenues.

The quarter under review is a traditionally slow quarter for the Group's publishing business, and the COVID-19 outbreak put further pressure on the already weak consumer sentiment. To contain the spread of the pandemic, the Malaysian government has implemented a Movement Control Order ("MCO") on 18 March 2020 which led to a significant drop in the country's economic activities. Resulting from this, the segment saw sharp declines in its revenue since the MCO was imposed.

B1. Analysis of performance (Continued)

Hong Kong's economy has been adversely impacted by months of social unrest that crippled the local retailing and tourism businesses, and the situation was exacerbated by the COVID-19 outbreak in January 2020. These have negative impacts on this segment's performance. For the quarter under review, the turnover of the Hong Kong and Taiwan segment fell by 35.1% to US\$7,662,000 from US\$11,805,000 in the prior year quarter. The segment's loss before income tax for the current quarter widened to US\$3,214,000 from US\$818,000 a year ago.

The Group's business in North America recorded a turnover of US\$2,582,000 for the current quarter, which was 21.4% below the US\$3,284,000 recorded in the same quarter last year. Despite the decline in turnover, the segment reported a profit before income tax of US\$197,000, a turnaround from a loss before income tax of US\$14,000 in the corresponding quarter last year. The improvement was mainly attributed to cost savings and the receipt of a grant from the local government.

Travel and travel related services

The turnover for the Group's travel segment for the quarter under review was US\$4,692,000, a decrease of 46.0% from US\$8,695,000 reported in the same quarter last year. The travel sector was one of the hardest hit industries due to the COVID-19 pandemic as many countries imposed lockdowns and travel bans in an attempt to contain the spread of the virus. The segment reported a loss before income tax of US\$1,082,000 for the quarter under review, which was at about the same level as that of the prior year quarter.

FY 2019/2020

For the year ended 31 March 2020, the Group recorded a turnover of US\$239,217,000 as compared to US\$285,560,000 in the previous year. The 16.2% year-on-year decline in turnover was due in part to the sharp downturn in business since the COVID-19 outbreak in January. The turnover for publishing and printing segment fell 16.9% to US\$161,256,000 from US\$193,957,000 recorded last year. Meanwhile, the turnover for the travel segment dropped 14.9% to US\$77,961,000 from US\$91,603,000 a year ago.

The Group recorded a profit before income tax of US\$9,283,000 as opposed to last year's loss before income tax of US\$6,537,000. This was mainly due to the provisions for impairment of goodwill and certain plant and machinery totaling US\$17,977,000 made in last year. Excluding which, current year's profit before income tax would have been 18.0% below last year's. This was mainly due to the sharp decline in revenue since the COVID-19 outbreak in January.

The Group's EBITDA for the year was US\$16,586,000, an increase of 261.0% when compared with last year's US\$4,595,000.

During the year under review, both the RM and C\$ weakened against the US Dollar, resulted in negative currency impacts of approximately US\$2,588,000 and US\$129,000 on the Group's turnover and profit before income tax respectively.

B2. Variation of results against immediate preceding quarter

	(Unaudited) Three months ended 31 March 2020 US\$'000	(Unaudited) Three months ended 31 December 2019 US\$'000	% Change
Turnover	38,457	56,230	-31.6%
(Loss)/profit before income tax	(1,537)	4,819	-131.9%

The Group recorded a total turnover of US\$38,457,000 for the current quarter, a decrease of 31.6% if compared to the immediate preceding quarter. The turnover for its publishing and printing segment was US\$33,765,000, representing a decrease of 20.0% or US\$8,434,000 when compared to the previous quarter. Meanwhile, the turnover for the travel segment fell by 66.6% to US\$4,692,000 for the current quarter. Besides being a traditionally slow period, the current quarter's decrease in turnover was also caused by the COVID-19 outbreak.

The decline in turnover adversely affected the earnings for the quarter in review where the Group recorded a loss before income tax of US\$1,537,000 as opposed to a profit before income tax of US\$4,819,000 for the immediate preceding quarter.

B3. Current year prospects

With the world brought down to its knees by the COVID-19 pandemic and many countries imposing lockdown or movement control restrictions, the global economy is facing and will continue to experience contraction until the pandemic comes under control and the confinement measures gradually uplifted. Despite the COVID-19 stimulus packages introduced by governments around the world including Malaysia and Hong Kong, consumer demand remains weak whilst businesses globally struggle to stay afloat. With this backdrop, the Group expects the coming financial year to be extremely challenging.

With most parts of the world experiencing lockdown in various degrees to curb the spread of COVID-19, digital platforms have become the tool for many to work from home, to communicate with each other or for governments to dispense information to their citizens. The Group hopes to adapt to this "new normal" in order to grow its market share and revenue from the digital platforms. For the travel segment, which is one of the hardest hit businesses, the Group expects the year ahead to be challenging as travel will be greatly reduced due to the pandemic until a cure or a vaccine is found. Efforts have been taken to streamline the tour operations and ensure that the operations will have the resources necessary to get through the pandemic and restart operations once international travel resumes.

Meanwhile, the Group will continue to exercise prudent cost controls across all business units and intensify its efforts to further strengthen operational efficiency and effectiveness. Furthermore, the Group will work continuously adapting its operations in all regions to meet the crippling effects brought about by this pandemic.

B4. Profit forecast and profit guarantee

The Group has not provided any profit forecast or profit guarantee in any public document.
