## A8. Turnover and segment information

The Group has determined the operating segments based on the reports that are reviewed and used by the Group Executive Committee for making strategic decisions.

The Group is organised operationally on a worldwide basis in four major operating segments:

Publishing and printing: Malaysia and other Southeast Asian countries Publishing and printing: Hong Kong and Mainland China Publishing and printing: North America Travel and travel related services

Publishing and printing segment is engaged in the publication of various newspapers and magazines in Chinese language, and other related printed and digital publications. It derives its revenue mainly from advertising and sales of newspapers and magazines. Travel and travel related services segment derives revenue from the sale of travel packages and provision of tour services.

The Group Executive Committee assesses the performance of the operating segments based on a measure of segment profit before income tax as per the internal financial report. Other information provided is measured in a manner consistent with that in the internal financial report.

## B1. <u>Analysis of performance</u>

		nths ended Iarch		ended Iarch

	US\$'000	US\$'000	US\$'000	US\$'000

Turnover	103,780	107,410	472,237	445,844
Profit before income tax	19,479	12,446	84,915	74,207

The Group's profit before income tax of the fourth quarter grew significantly by 56.5% or US\$7,033,000 to US\$19,479,000. The improvement was mainly attributable to the strong performance of the Group's principal activities, printing and publishing. An impairment charge of US\$4,132,000 was recognised in the previous year corresponding quarter, excluding which, the increase would have been 17.5% or US\$2,901,000.

During the current quarter under review, the Group's turnover decreased by 3.4% or US\$3,630,000 to US\$103,780,000, caused mainly by a change in revenue presentation in relation to the travel segment's ticketing sales. The full year's impact was recognised in the current quarter. This change has no effect on the Group's profit. The Group's revenue growth would have been 4.1% or US\$4,437,000 on a comparable basis if the effect of the change in revenue presentation was excluded.

The publishing and printing business continues its healthy growth momentum, with a turnover of US\$98,099,000 and profit before income tax of US\$19,627,000 which grew by 51.7% or US\$6,686,000.

Much of the growth was driven by the increase in advertising revenue, supported by the Group's continued application of various innovative initiatives, effective sales packages, as well as its well-established position as a quality content provider.

Revenue from the travel segment decreased by 49% or US\$5,454,000 to US\$5,681,000 as a result of the change in revenue presentation as mentioned above. On a comparable basis, the Group's travel segment delivered a robust performance with a double-digit growth in turnover of 23.5%. The Group's prominent long haul tours attracted a wide range of travellers as the economy continued to improve.

The exchange rate between RM and US\$ remained relatively stable during the quarter under review and therefore there was minimal currency impact on the Group's results for the quarter.

For the year ended 31 March 2012, the Group has again attained a record profit before income tax of US\$84,915,000, an increase of 14.4% or US\$10,708,000. The Group's turnover reached US\$472,237,000, an increase of 5.9% or US\$26,393,000.

The growth was mainly supported by the Group's solid market position and steady improvement in the economies in which the Group has presence.

During the year, the publishing and printing segment continued to deliver good results while the travel segment, operated through Charming Holidays and Delta Group, marked its 25th anniversary by achieving a record profit before income tax.

The positive impact brought about by the appreciation of RM and Canadian dollar against US\$ during the year ended 31 March 2012 was US\$8,142,000 for turnover and US\$1,627,000 for profit before income tax.

#### B2. Variation of results against immediate preceding quarter

Turnover decreased by 15.5% or US\$19,017,000 to US\$103,780,000, while profit before income tax decreased by 27.1% or US\$7,232,000 to US\$19,479,000 when compared to the immediate preceding quarter. The decrease was partly due to the drop in tour revenue caused by the change in revenue presentation. The fourth quarter being seasonally a slow period for advertising was another major reason for the decline in turnover.

## B3. <u>Prospects for 2012/2013</u>

2012 is an eventful year, with uncertainties looming and opportunities hidden. The recent election of the Chief Executive of Hong Kong, the coming Malaysian general election, the London Olympic Games, China top party and military leadership reshuffle at the 18th National Congress of the Communist Party of China, the US presidential election as well as the unresolved European debt crisis will play their roles in shaping not only their respective economies but also the global economic environment. With these uncertainties, the Group expects the local businesses and consumer spending to be conservatively prudent and this may impact the Group's advertising revenue.

Barring from any unforeseen circumstances, the Board remains cautiously optimistic on the Group's performance for the financial year 2012/2013.

The Group will continue to enhance its cost efficiency and strengthen its media business through improvement in content and diversification of distribution platforms.
