A. NOTES TO THE FINANCIAL INFORMATION

A1. <u>Basis of preparation and changes in accounting policies</u>

a) Basis of preparation

This financial information for the quarter and period ended 31 December 2013 has been prepared in accordance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting" issued by the International Accounting Standard Board ("IASB"), Rule 13.09(2)(a) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("HK Listing Rules") and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities").

This financial information should be read in conjunction with the annual financial statements for the year ended 31 March 2013, which were prepared in accordance with International Financial Reporting Standards ("IFRSs").

This financial information has not been audited.

b) Accounting policies

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 March 2013 as described in those annual financial statements.

- Amendments to IAS 1 "Presentation of financial statements" require grouping of items presented in other comprehensive income on the basis of whether they are potentially reclassifiable to profit or loss subsequently. The Group's presentation of other comprehensive income in the consolidated financial statements has been modified accordingly with comparative information re-presented.
- ii) IAS 19 (revised) "Employee benefits" amends the accounting for employment benefits. The Group has applied the standard retrospectively in accordance with the transition provisions of the standard. The impact on the Group has been in the following areas:

The standard replaces the interest cost on the defined benefit obligation and the expected return on plan assets with a net interest cost based on the net defined benefit asset or liability and the discount rate, measured at the beginning of the year. There is no change to determining the discount rate; this continues to reflect the yield on high-quality corporate bonds. This has increased the income statement charge as the discount rate applied to assets is lower than the expected return on assets. This has no effect on total comprehensive income as the increased charge in profit or loss is offset by a credit in other comprehensive income. The change has resulted in increases in the income statement charge for the nine months ended 31 December 2012 and the year ended 31 March 2013 of US\$153,000 and US\$307,000 respectively.

There is a new term "remeasurements". This is made up of actuarial gains and losses, the difference between actual investment returns and the return implied by the net interest cost.

The standard requires remeasurements to be recognised in retained earnings or a separate reserve. The Group has elected to recognise the remeasurements in retained earnings, this resulted in increases of US\$2,573,000 and US\$2,639,000 in other reserves with corresponding decreases in the retained earnings as at 1 April 2012 and 1 April 2013 respectively.

iii) Taxes on income in the interim periods are accrued using the tax rates that would be applicable to expected total annual earnings.

c) Functional currency and translation to presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates, i.e. the functional currency. The functional currency of the Company is RM. However, each entity within the Group can present its financial statements in any currency, which can be the same or different from the entity's functional currency. As the Group operates internationally, management considers that it is more appropriate to use US\$, a globally recognised currency, as the presentation currency for the Group's consolidated financial statements. For the entity whose functional currency is not the presentation currency, i.e. US\$, its results and financial position have been translated into US\$.

A2. <u>Auditor's report on preceding annual financial statements</u>

The auditor's report of the Group's annual financial statements for the year ended 31 March 2013 was not subject to any qualification.

A3. Seasonal or cyclical factors

The business operations of the Group may be affected by major festive seasons or major events that may increase or decrease the advertising expenditure and the travel business revenue.

A4. <u>Unusual item</u>

There were no unusual items affecting the Group's assets, liabilities, equity, net income or cash flows during the quarter under review.

A5. Changes in estimates

There were no material changes in estimates of amounts reported in prior financial years that have a material effect on the results of the current quarter under review.

A6. <u>Changes in debt and equity securities</u>

a) In August 2013, the Company repurchased a total of 1,000 of its listed shares on The Stock Exchange of Hong Kong Limited from the open market at the price of HK\$2.90 per share for the purpose of validating the declaration of solvency in relation to the share buyback mandate in accordance with the provision of the Malaysian Companies Act. The repurchase was financed by internally generated funds. Details of the repurchase are summarised as follows: (Unaudited)

	Number of ordinary shares	Purchase p shai	-	Aggregate purchase	Equivalents
Month/Year	repurchased	Highest HK\$	Lowest HK\$	consideration HK\$	in US\$
August 2013	1,000	2.90	2.90	2,900	374

All the shares repurchased during the period ended 31 December 2013 were cancelled. Accordingly, the issued share capital of the Company was reduced by the par value of the repurchased shares and the premiums paid on these shares were charged against the share premium account. An amount equivalent to the par value of the shares cancelled was transferred from the Company's retained earnings to the capital redemption reserve.

A. NOTES TO THE FINANCIAL INFORMATION (Continued)

A6. Changes in debt and equity securities (Continued)

A8. <u>Turnover and segment information</u>

The Group has determined the operating segments based on the reports that are reviewed and used by the Group Executive Committee for making strategic decisions.

The Group is organised operationally on a worldwide basis in four major operating segments:

Publishing and printing: Malaysia and other Southeast Asian countries Publishing and printing: Hong Kong and Mainland China Publishing and printing: North America Travel and travel related services

Publishing and printing segment is engaged in the publication, printing and distribution of newspapers, magazines, digital contents and books in primarily Chinese language. It derives its revenue mainly from advertising and sales of newspapers and magazines. Travel and travel related services segment derives revenue from the sale of travel packages and provision of tour services.

The Group Executive Committee assesses the performance of the operating segments based on a measure of segment profit before income tax as per the internal financial report. Other information provided is measured in a manner consistent with that in the internal financial report.

B1. <u>Analysis of performance</u>

	Three mor	dited) hths ended cember	(Unaudited) Period ended 31 December		
	2013 US\$'000	2012 US\$'000	2013 US\$'000	2012 US\$'000	
				(Restated)	
Turnover	117,332	123,058	369,119	367,760	
Profit before income tax	19,920	21,877	55,570	58,928	
EBITDA	24,369	24,844	69,277	66,463	

The Group's turnover for the current quarter was US\$117,332,000, representing a 4.7% decrease from US\$123,058,000 in the same quarter last year. The publishing and printing segment's turnover was down by 5.9% to US\$100,109,000, while the tour segment's turnover grew 3.0% to US\$17,223,000.

Profit before income tax for the quarter was US\$19,920,000, a decrease of 8.9% from US\$21,877,000 in the same quarter last year due mainly to the decline in turnover and higher finance costs incurred during the quarter.

During the quarter, the ongoing weakening of Malaysian Ringgit and Canadian Dollar against US dollar resulted in negative currency impact on the Group's turnover and profit before income tax of about US\$4,000,000 and US\$900,000 respectively.

EBITDA for the current quarter was US\$24,369,000, a 1.9% decline from US\$24,844,000 in the year-ago quarter.

The Group's publishing and printing segment reported a profit before income tax of US\$22,256,000, 9.0% or US\$2,199,000 below that of the prior-year quarter.

During the quarter, the Malaysian operations were adversely impacted by cautious sentiments arising from the government's subsidies rationalisation plan which led to advertisers reducing their spending. Profit before income tax from this segment decreased by 14.0% to US\$17,298,000 from US\$20,103,000 a year earlier.

On the other hand, the Group's operations in Hong Kong and Mainland China recorded a 9.2% or US\$387,000 increase in profit before income tax to US\$4,572,000, mainly driven by the growth in advertising revenue from the local property market.

The operations in North America also achieved a notable growth of 131.1% in profit before income tax to US\$386,000 in the current quarter on the back of lower operating costs.

Turnover for the Group's travel segment grew 3.0% to US\$17,223,000 from US\$16,725,000 in the year-ago quarter. The increase in revenue was supported by the continuous popularity of the travel segment's flagship European tours as well as strong demand for its newly introduced tour products. However, segment profit before income tax decreased from last year's US\$107,000 to US\$53,000 due to higher operating costs incurred during the quarter.

The Group's turnover for the nine months ended 31 December 2013 increased marginally by 0.4% to US\$369,119,000 from US\$367,760,000 a year ago. The growth in revenue, however, was offset by higher finance costs incurred during the period, resulting in a 5.7% decline in profit before income tax to US\$55,570,000 from US\$58,928,000 for the same period in the prior year.

Both Malaysian Ringgit and Canadian dollar weakened against US dollar during the financial period under review, resulting in negative currency impact on the Group's revenue and profit before income tax of about US\$6,200,000 and US\$1,300,000 respectively.

B2. Variation of results against immediate preceding quarter

For the current quarter, the Group reported total revenue of US\$117,332,000, which represents a decline of 6.5% or US\$8,153,000 as compared to the immediate preceding quarter. Profit before income tax was US\$19,920,000, up 18.8% or US\$3,147,000 from US\$16,773,000 in the preceding quarter, driven by higher revenue from the publishing and printing segment.

B3. <u>Current year prospects</u>

The Group is expecting another challenging period in the last quarter of the current financial year, given the market uncertainty faced by the Group's regional operations.

Apart from the fourth quarter being traditionally a quiet one because of softer advertising market conditions after the festive seasons, the higher base of last year's performance and the weakening of Malaysian Ringgit may also impact the Group's results in the coming quarter.

Nevertheless, the Group will continue to refine its marketing and sales efforts to generate more revenue while at the same time focus on managing operational efficiencies and cost containment.

B4. <u>Profit forecast and profit guarantee</u>

The Group has not provided any profit forecast or profit guarantee in any public document.

B5. <u>Profit before income tax</u>
