c) Functional currency and translation to presentation currency

However, each entity within the Group can present its financial statements in any currency, which can be the same or different from the entity's functional currency. As the Group operates internationally, management considers that it is more appropriate to use US\$, a globally recognised currency, as the presentation currency for the Group's consolidated financial statements. For the entity whose functional currency is not the presentation currency, i.e. US\$, its results and financial position have been translated into US\$.

The Group is organised operationally on a worldwide basis in four major operating segments:

Publishing and printing: Malaysia and other Southeast Asian countries Publishing and printing: Hong Kong and Mainland China Publishing and printing: North America Travel and travel related services

Publishing and printing segment is engaged in the publication of various newspapers and magazines in Chinese language, and other related printed and digital publications. It derives its revenue mainly from advertising and sales of newspapers and magazines. Travel and travel related services segment derives revenue from the sale of travel packages and provision of tour services.

B1. <u>Analysis of performance</u>

	(Unaudited) Three months ended 30 June		
	2012 2011		
	US\$'000	US\$'000	
Turnover	123,153	117,991	
Profit before income tax	20,733	19,054	

The Group delivered a profit before income tax of US\$20,733,000 for the current quarter, an increase of 8.8% compared to US\$19,054,000 in the same quarter last year. In addition to a strong performance from the travel segment, this improved result was also attributed to the Group's stable operating costs and a gain on disposal of an investment.

Turnover for the quarter rose 4.4% to reach US\$123,153,000, driven primarily by a strong growth in tour revenue as well as a moderate growth in the advertising revenue from the publishing and printing business.

The Group's core business, publishing and printing, achieved a 4.4% increase in profit before income tax when compared to the same quarter last year. The improvement was driven mainly by the growth in advertising revenue from the operations in Malaysia and Hong Kong, the latter being supported by the increase in advertising spending from luxury brands and recruitment advertisements. On the other hand, a slowdown of the economy and the property market in North America has resulted in a decrease in advertising income from this segment for the current quarter.

The Group's travel segment delivered an outstanding performance during the quarter with turnover surging 28.5% to US\$24,333,000 compared to US\$18,936,000 in the corresponding quarter last year; and profit before income tax rising 182.2% or US\$898,000 to US\$1,391,000. The strong revenue growth across all tour operations in Hong Kong and North America was partly fueled by robust demand of long-haul tours to Europe, encouraged by the weakening of the Euro; while demand for tours was boosted in June due to the summer holidays being a traditional peak season for travelling. For the North American operations, in addition to the popular China tours, there was an increase in tourists from Thailand and Indonesia travelling to North America in the current quarter.

Operating costs were stable during the current quarter under review with major cost items, including newsprint and labour costs, remained well controlled.

The depreciation of Ringgit Malaysia and Canadian dollar against the US dollar resulted in negative currency effects on the Group's turnover and profit before income tax of the current quarter by about US\$2,822,000 and US\$583,000 respectively.

B2. Variation of results against immediate preceding quarter

Turnover grew by 18.7% or US\$19,373,000 to US\$123,153,000, while profit before income tax increased by 6.4% or US\$1,254,000 to US\$20,733,000 when compared to the immediate preceding quarter. This was mainly attributable to the strong performance of the Group's tour business during the current quarter under review.

B3. Current year prospects

In Malaysia, the economy has registered a moderate growth of 4.7% during the first quarter of 2012 and moving ahead, Malaysia will depend very much on the growth in domestic demands. The markets in Hong Kong and China have evidently experienced a slowdown in the second quarter of this calendar year and it is uncertain whether these economies will improve in the third quarter. The Group expects a tough and challenging business environment ahead as many economists have predicted a slower second half if compared to the same period last year. Nevertheless, the Group will continue to enhance its operational efficiency.

B4. <u>Profit forecast and profit guarantee</u>

The Group has not provided any profit forecast or profit guarantee in any public document.

B5. <u>Profit before income tax</u>

Profit before income tax has been arrived at after (charging)/crediting:

B6. <u>Income tax expense</u>

Income tax expense comprises the following:

Current period income tax expense Under provision of income tax expense in prior years Deferred income tax expense	4,772 16 264	4,832 21 439
-	5,052	5,292

The effective tax rate of the Group for the current quarter under review was lower than the Malaysian statutory tax rate of 25% mainly due to the lower statutory tax rates in other tax jurisdictions in which the Group operates.

B7. <u>Status of corporate proposals</u>

There were no corporate proposals announced but not completed at the latest practicable date, which is not earlier than seven days from the date of issue of this quarterly report, except for the following:

- a) On 16 July 2012, the board of directors announced that the Company proposed to:
 - i. cancel approximately US\$219.78 million (equivalent to approximately RM700.00 million or HK\$1,704.41 million) standing to the credit of the Company's share premium account;
 - ii. transfer the credit arising from the cancellation of the share premium account of the Company to the contributed surplus account of the Company; and
 - iii. distribute approximately US\$219.78 million (equivalent to approximately RM700.00 million or HK\$1,704.41 million) or US\$0.13 (equivalent to RM0.41 or HK\$1.01) per ordinary share to the shareholders (collectively referred to as the "Proposals").

A circular containing further details concerning the Proposals and a notice convening a special general meeting of the Company will be dispatched to the shareholders in due course. Barring any unforeseen circumstances, the Proposals are expected to be completed by the fourth quarter of 2012.

b) On 15 August 2012, the board of directors announced the proposal to spin off the Group's travel and travel related business and to have a separate listing of the same on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the "Proposed Spin-off"). The Proposed Spin-off is expected to be completed by the end of 2012.

B9. Material litigation

There are several libel suits which involve claims against some companies in the Group. The Group has been strongly contesting those claims. Even though the final outcome of the proceedings is still uncertain as of the date of this unaudited financial information, the directors of the Company are of the opinion that the respective ultimate liability, if any, will not have a material adverse impact upon the Group's financial position.

B10. Dividend payable

As disclosed in B7(a), the board of directors has proposed on 16 July 2012 a dividend of US\$0.13 per ordinary share (equivalent to RM0.41 or HK\$1.01 per ordinary share).
