NOTES TO THE INTERIM FINANCIAL INFORMATION

For the six months ended 30 September 2020

1 BASIS OF PREPARATION

The unaudited condensed consolidated interim financial information of the Company and its subsidiaries (collectively the "Group") for the six months ended 30 September 2020 (this "interim financial information") has been prepared in accordance with the International Accounting Standard ("IAS") 34 "Interim Financial Reporting" issued by the International Accounting Standards Board ("IASB") and applicable disclosure requirements of Appendix 16 of the Rules Governing the Listing of Securities (the "HK Listing Rules") on The Stock Exchange of Hong Kong Limited ("HK Stock Exchange").

This interim financial information should be read in conjunction with the annual financial statements for the year ended 31 March 2020 which were prepared in accordance with International Financial Reporting Standards ("IFRSs").

This interim financial information has not been audited.

2 ACCOUNTING POLICIES

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period except for the adoption of new and amended standards as set out below.

Taxes on income for the six months ended 30 September 2020 are accrued using the tax rate that would be applicable to expected total annual earnings.

(i) New and amended standards and interpretations adopted by the Group

The Group has applied the following standards and amendments for the first time for its annual reporting period commencing 1 April 2020:

- Amendments to IAS 1 and IAS 8, "Definition of material"
- Amendments to IFRS 3, "Definition of a business"
- Amendments to IAS 39, IFRS 7 and IFRS 9, "Interest rate benchmark reform"
- Conceptual Framework for Financial Reporting 2018, "Revised conceptual framework for financial reporting"

The amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(ii) New and amended standards and interpretations not yet adopted by the Group

Certain new and amended accounting standards and interpretations have been published that are not mandatory for 30 September 2020 reporting periods and have not been early adopted by the Group.

		Effective for annual periods beginning on or after
Amendments to IAS 1	Classification of liabilities as current or non-current	1 January 2023
Amendments to IAS 16	Property, plant and equipment: proceeds before intended use	1 January 2022
Amendments to IAS 37	Onerous contracts — cost of fulfilling a contract	1 January 2022
Amendments to IFRS 3	Reference to the conceptual framework	1 January 2022
Amendments to IFRS 10	Sale or contribution of assets between an investor	Effective Date
and IAS 28	and its associate or joint venture	to be determined
Amendments to IFRS 16	COVID-19-related rent concessions	1 June 2020
IFRS 17	Insurance contracts	1 January 2023
Amendments to IFRS 17	Insurance contracts	1 January 2023
Annual improvements	Annual improvements to IFRSs 2018-2020 cycle	1 January 2022

None of these new standards and interpretations are expected to have a material impact on the Group's consolidated financial statements.

3 FUNCTIONAL CURRENCY AND TRANSLATION TO PRESENTATION CURRENCY

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates, i.e. the functional currency. The functional currency of the Company is Malaysian Ringgit ("RM"). However, each entity within the Group can present its financial statements in any currency, which can be the same or different from the entity's functional currency. As the Group operates internationally, management considers that it is more appropriate to use United States Dollar ("US\$"), a globally recognised currency, as the presentation currency for the Group's consolidated financial statements. For the entity whose functional currency is not US\$, its results and financial position have been translated into US\$.

The assets and liabilities of each entity within the Group are mostly denominated in its own functional currency and do not have material impact on the consolidated statement of profit or loss for the period.

During the six months ended 30 September 2020, the Group is particularly exposed to movements in the US\$ to RM exchange rate as a major part of the Group's operations is located in Malaysia.

4 TURNOVER AND SEGMENT INFORMATION

The Group Executive Committee is the Group's chief operating decision-maker. Management has determined the operating segments based on the reports that are reviewed and used by the Group Executive Committee for strategic decision-making.

The Group is organised operationally on a worldwide basis in four major operating segments:

Publishing and printing: Malaysia and other Southeast Asian countries

Publishing and printing: Hong Kong and Taiwan

Publishing and printing: North America

Travel and travel related services

Publishing and printing segments are engaged in the publication, printing and distribution of newspapers, magazines, books and digital contents primarily in the Chinese language. The segments derive revenue mainly from the provision of advertising services and sales of newspapers and magazines. Travel and travel related services segment derives revenue from the sales of travel packages and provision of tour services.

The Group Executive Committee assesses the performance of the operating segments based on a measure of segment (loss)/profit before income tax as presented in the internal financial report. Other information provided is measured in a manner consistent with that in the internal financial report.

The Group's turnover and results for the six months ended 30 September 2020, analysed by operating segment, are as follows:

OVERALL REVIEW OF OPERATIONS

The Group faced with unprecedented challenges brought by the COVID-19 pandemic during the first half-year of 2020/2021. The economic headwinds and weak market sentiments have adversely affected the Group's publishing and printing business; while the border closures and travel restrictions have a huge negative impact on its travel operation.

For the six-month period ended 30 September 2020, the Group's turnover decreased by 62.2% to US\$54,591,000 when compared to the same period last year, with both the publishing and printing and travel segments reporting declines. The shortfall in revenue was partially mitigated by significant cost savings and support from certain governments' grant and wage subsidy programs. The Group recorded a loss before income tax of US\$5,355,000 for the current period, as opposed to a profit before income tax of US\$6,001,000 in the prior year period.

Turnover of the Group's publishing and printing segment fell by 36.1% to US\$54,523,000 from US\$85,292,000 in the previous year period. This resulted in the segment recording a loss before income tax of US\$4,248,000 compared to a profit before income tax of US\$2,085,000 in the corresponding period last year. Meanwhile, the pandemic and lockdowns caused the Group's travel segment to register a 99.9% drop in turnover to US\$68,000 and a loss before income tax of US\$803,000 as opposed to a profit before income tax of US\$4,307,000 a year earlier.

The Group reported an EBITDA loss of US\$1,681,000 for the six months ended 30 September 2020, comparing to an EBITDA of US\$9,653,000 for the prior year period.

Basic loss per share for the six months ended 30 September 2020 was US0.29 cents, as opposed to a basic earnings per share of US0.32 cents in the same period last year.

As at 30 September 2020, the Group's cash and cash equivalents and short term bank deposits totaled US\$76,328,000 and the Group's net assets per share attributable to owners of the Company was US9.58 cents.

SEGMENTAL REVIEW

Publishing and Printing

Malaysia and other Southeast Asian countries

The Malaysia and other Southeast Asian countries segment turnover fell by 39.5% from US\$54,679,000 to US\$33,079,000 for the period under review. The Malaysian government's implementation of the Movement Control Order ("MCO"), which lasted from 18 March 2020 to 9 June 2020, and the subsequent Recovery MCO to prevent a mass outbreak of the coronavirus had a grave impact on the country's economy. Many businesses suffered from the closure of operations save for essential services. Consumer spending fell as people shunned public places due to the virus which in turn has a negative impact on the advertisement spend in Malaysia. Besides the decrease in print advertisements, all ground events that the Group used to organise for its advertisers to complement its print platforms have come to a halt. Meanwhile, the segment's digital business was also adversely impacted by the slowdown in the country's economic activities.

Despite its cost containment efforts, the significant decrease in turnover resulted in the segment reporting a loss before income tax of US\$3,619,000, as opposed to a profit before income tax of US\$4,520,000 in the corresponding period last year.

Hong Kong and Taiwan

The economy of Hong Kong was also badly affected by the coronavirus pandemic which hit the city in early 2020. The closing of the city's borders has greatly affected its retail business as the number of tourists plummeted. Hong Kong's GDP contracted during the period under review and its unemployment rate rose to 6.4% in the 3rd quarter of 2020, the highest in 16 years. Hong Kong experienced a third wave of COVID-19 in July which prompted the government to further tighten the social distancing measures, thereby slowed down the city's economic recovery.

Affected by the pandemic and weak market conditions, the turnover of the Hong Kong and Taiwan segment decreased by 26.5% to US\$18,464,000 from US\$25,105,000 in the same period last year. The segment recorded a loss before income tax of US\$985,000 for the period in review, which narrowed from last year's loss of US\$1,599,000. In addition to the Group's cost-cutting measures, the improvement in result was also due to the wage subsidies received under the Hong Kong government's Employment Support Scheme which aimed at assisting businesses battered by the coronavirus pandemic.

North America

Turnover of the Group's publishing and printing operations in North America fell by 45.9% to US\$2,980,000 from US\$5,508,000 in the same period last year. The North American economy was also badly affected by the coronavirus pandemic with Canada imposing lockdown measures across the country since March 2020. Nevertheless, the segment recorded a profit before income tax of US\$356,000 for the period under review, as opposed to a loss before income tax of US\$836,000 in the corresponding period last year. This was mainly due to cost savings and funds received from the Canadian government's subsidies and relief programs.

Travel and travel related services

The coronavirus has paralysed the tour and travel industry with border closures and travel restrictions being implemented by many countries. The Group's travel segment has experienced significant decline in revenue since February 2020. The segment's turnover for the six months ended 30 September 2020 amounted to US\$68,000 only, down 99.9% from US\$59,238,000 recorded in the same period last year. The sharp decline in revenue resulted in the travel segment reporting a loss before income tax of US\$803,000, as opposed to a profit before income tax of US\$4,307,000 for the same period last year.

Digital business

The global coronavirus has led to changes in the way businesses are conducted as well as consumer spending habits. In adapting with the "new normal" brought about by the pandemic, the Group has been organising more virtual events in order to reach a wider audience and drive revenue. After its successful virtual "Overseas Education Fair" in March 2020, *Ming Pao Daily News* has continued to organise a number of live webinars on various topics including finance, health and overseas properties, in which experts were invited to share their expertise and experiences. In view of the acceleration of e-commerce, the Group has continued to scale up its e-commerce platform "PowerUp" to serve its customers as well as to provide its business partners with more business opportunities.

Sin Chew Daily also launched its first online education fair during the period under review which attracted about 60,000 prospective students and parents who were looking for higher education options. A number of other virtual events were held, including an online domestic travel fair 'GOLOKAL', a series of virtual health talks, a lifestyle e-fair and a property e-fair.

The Group will remain focused on growing its digital audiences by providing quality news, information and content that are most relevant to their needs; while at the same time building synergies with its existing print products to widen the Group's revenue streams.

OUTLOOK

The Group expects the market conditions for the months ahead to be extremely challenging and difficult. It is imperative for countries to open their borders in order to drive global trade and spur spending by consumers and allow economic activities to resume gradually. However, with the current resurgence of coronavirus infections in many countries, the Group does not expect much improvement in the economy of the countries which it operates in for the remainder of the current financial year.

COVID-19 has an unprecedented adverse impact on the travel industry which will only start to recover when an effective vaccine is widely available and customers' confidence in air travel is restored. The setting up of "air travel bubbles" between countries will help revive cross-border passenger flow and the Group will keep abreast of this market development for any business opportunities. Meantime, it will strive to keep its travel business afloat through this tough period by drastically cutting down all its expenditures.

The lockdowns and social distancing measures have led to an increase in online consumption and hence digital business opportunities. The Group will continue to focus on expanding its multimedia services through its web and mobile platforms. At the same time, the Group will monitor its financial position closely and ensure strict cost controls remain in place and be monitored closely to ensure that the Group has sufficient resources to ride through this pandemic.

PLEDGE OF ASSETS

As at 30 September 2020, certain of the Group's banking facilities were secured by the following:

- (a) first legal charges on certain of the Group's leasehold land and buildings with an aggregate carrying value of US\$2,874,000 at 30 September 2020 (At 31 March 2020: US\$2,943,000) and assignment of rental income derived therefrom; and
- (b) corporate guarantees issued by the Company.

As at 30 September 2020, the Group had short-term bank deposits of US\$516,000 (At 31 March 2020: US\$516,000) pledged to a bank for a bank guarantee issued.

CONTINGENT LIABILITIES

As at 30 September 2020, there were several libel suits which involved claims against some companies in the Group. The Group has been strongly contesting those claims. Even though the final outcome of the proceedings is still uncertain as of the date this unaudited interim financial information is authorised for issue, the directors of the Company are of the opinion that the respective ultimate liability, if any, will not have a material adverse impact on the Group's financial position.

CAPITAL COMMITMENTS

As at 30 September 2020, the Group's authorised capital expenditure for property, plant and equipment contracted but not provided for in this interim financial information amounted to US\$555,000 (At 31 March 2020: US\$509,000).

LIQUIDITY, FINANCIAL RESOURCES AND NET GEARING RATIO

As at 30 September 2020, the Group's cash and cash equivalents and short-term bank deposits amounted to US\$76,328,000 (31 March 2020: US\$73,882,000) and total bank and other borrowings were US\$21,217,000 (31 March 2020: US\$19,362,000). The net cash position was US\$55,111,000 (31 March 2020: US\$54,520,000). Owners' equity was US\$161,667,000 (31 March 2020: US\$162,153,000).

The net gearing ratio of the Group, calculated as net debt over owners' equity, was nil as at 30 September 2020 and 31 March 2020.

EMPLOYEES AND EMOLUMENT POLICY

As at 30 September 2020, the Group had 3,202 employees (31 March 2020: 3,359 employees), the majority of whom were employed in Malaysia and Hong Kong. The Group remunerates its employees based on industry practice and performance of individual employees. The emoluments of the directors and senior management are reviewed by the Remuneration Committee regularly, having regard to the Group's operating results, individual performance and comparable market statistics. No director or any of his/her associates is involved in dealing with his/her own remuneration.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S SHARES

During the six months ended 30 September 2020, neither the Company nor any of its subsidiaries had purchased, sold or the Company had redeemed any of the Company's listed securities.

CORPORATE GOVERNANCE

The Board of Directors (the "Board") is committed to practising the highest standards of corporate governance and operating within a governance framework that is formulated based on the Malaysian Code on Corporate Governance 2017 (the "Malaysian Code") and the Corporate Governance Code (the "Hong Kong Code") contained in Appendix 14 of the HK Listing Rules. The Company has adopted the principles and recommendations of the Malaysian Code and all the code provisions in the Hong Kong Code as its own code on corporate governance practices.

During the period under review, the Company has met the code provisions as set out in the Hong Kong Code.

In respect of the Malaysian Code, the Company has complied with the principles and recommendations set out in the Malaysian Code wherever possible save for (i) at least half of the Board should comprise independent directors; (ii) the Board should seek annual shareholders' approval through a 2-tier voting process, if to retain an independent director who serves more than 12 years; (iii) the Board must have at least 30% women directors; (iv) the disclosure on a named basis of top five senior management's remuneration component including salary, bonus, benefits in-kind and other emoluments in bands of RM50,000 and (v) the Company is encouraged to adopt integrated reporting based on a globally recognised framework. The Board will continue to review and evaluate such recommendations under the Malaysian Code and is committed to achieving and sustaining high standards of corporate governance.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the requirements and code as set out in (i) Chapter 14 (Dealings in Listed Securities) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Chapter 14 of the Listing Requirements of Bursa Securities") and (ii) the HK Model Code contained in Appendix 10 of the HK Listing Rules. All directors of the Company have confirmed, following specific enquiry by the Company, their compliance with the required standards as set out in (i) Chapter 14 of the Listing Requirements of Bursa Securities and (ii) the HK Model Code during the period under review.

REVIEW OF FINANCIAL STATEMENTS

The Audit Committee has reviewed with management this interim financial information, including accounting principles and practices adopted by the Group and discussed risk management and internal control systems and financial reporting matters.
